Type-Test Certification of Special Equipment in China

Motoyama Engineering Works, Ltd.
President and CEO: Toshiaki Shimpaku

We acquired Type-Test Certification for our globe type, butterfly type and eccentric rotary plug type control valve dated July 10th, 2013, according to the Pressure Pipe Components Type Test Regulation in China.

Please refer to our web site, 'Company Profile/Authorization & Certifications'

We are keen to expand our business opportunities in China by having this certification. Your kind cooperation to this would be much appreciated.
